CALEDONIA/GAINES: Caledonia Township Supervisor Bryan Harrison helped take some of the guesswork out of municipal finances. He has posted the township's budget and monthly financial reports online at [caledoniatownship.org](http://caledoniatownship.org). He said he was inspired to post the information online by a transparency in government initiative promoted by the Mackinac Center, a Michigan think tank. "We are the first township in Kent County to do so," he said. "We have always tried to put information on the Web, applications and permits. This is just the next step."
